

ANNUAL CARDIOLOGY UPDATE 9 June 2015

Brilliant lecture . Here are my learning points.

AF + Coronary Artery Disease+ stent

NOAC+ Clopidogrel+ Aspirin for 6/12 if stent

AF Do CHADSVASC2 if 1 or more start NOAC at same time as referring.

IHD Stress test still good diagnostic and prognostic value in spite of NICE downgrading it.

Lipids Do QRISK2 on everyone over 40 Emphasise Lifestyle

HF Treatment

1. B Blocker
- 2 Ace and Spironolactone or Eplerinone
- 2 Pacing
- 3 ICD

HF Diagnosis

BNP+ ECHO gets em all!
